

Servian Troops Said to Be Marching on Capital

BERLIN, June 12.—A dispatch to the Lokal Anzeiger from Buda Pest says the garrison of Nish, where the late King Alexander was most popular is, according to a railroad official who has arrived at Buda Pest from Belgrade, marching on the Servian capitol with full war equipment and artillery.

REVOLTING STORIES ARE DENIED.

Premier Says They Are Sent Out for Political Effect.

Government Will Give the People a Chance to Act.

VIENNA, June 12.—The new Servian premier, M. Avakumovic is quoted in a dispatch from Belgrade today as saying: "I returned home yesterday from Alexandria where I was on professional business. I was at once summoned to the ministry, where the other ministers had assembled. They told me that the deed was committed at their request. I accepted the premiership. The cabinet meets today and will consider what steps shall next be taken. At present we are not in communication with Karageorgievich, even if the army has proclaimed him king. His election as king is probable, however, as there is no other course open. It will remain for the cabinet to remove him or not. "The government will not propose him but will leave this task to the representatives of the people. We shall then resign. We do not fear external interference, as there was none in the case of Bulgaria."

"Please say that peace prevails throughout Servia, and it will continue. That event now belongs to history. I should not judge the dead nor dwell on the past, but look to the future. "Sensational stories, many of which are undoubtedly being sent forth for political effect, are being published, the most revolting of them being that the soldiers outraged Queen Draga and attacked the body of King Alexander, and those who were admitted to the palace threw the remains out and stomped on them."

EVERYTHING SAID TO BE QUIET.

BERGRADE, June 12.—Everything is quiet thus far throughout the country, according to all the official and other reports.

WERE BURIED DURING THE NIGHT.

Bodies of the King and Queen Placed in the Cemetery.

Another Report Declares the Bodies Were Placed in a Pit.

BELGRADE, June 12.—The funeral occurred at 10:30 a. m. The strictest privacy was maintained in order to avoid hostile demonstration. Two coffins were brought in by the servants and carried up to the room where the bodies of the late king and queen were lying. The corpses were then put in the coffins and the latter were placed in a hearse which was hurriedly driven to the old cemetery, where the other members of the family are interred. In addition to the attendants only two priests were present at the funeral. The whole ceremony lasted only a few minutes. The body of the late premier Markovich will be buried with military honors. Colonel Naumovic, who was killed while forcing an entrance into the palace with dynamite, is described in the official notice of his death as "lying on the field of honor for his fatherland." It is now confirmed that only Queen Draga's brothers were killed, her sisters being taken to Pencovic by some conspirators.

WILL ACCEPT NEW GOVERNMENT.

PARIS, June 12.—The foreign office here received a dispatch from the French agent on the Servian frontier, confirming the press announcements that the new government at Belgrade had abolished the legislative assembly created by the late King Alexander and had renewed the ancient Skupstchina, which had been ordered to assemble Monday for the purpose of proclaiming Prince Karageorgievich as king. The assembly just abolished was made up of appointees of the late king and did not contain a member who was opposed to Alexander's policy. The dispatch adds that Belgrade continues quiet, the people apparently being reconciled to the new conditions. Officials here doubt the truth of the report that Belgrade is quiet as the au-

OLD CORONATION CHURCH OF THE SERVIAN KINGS.

thorities here are unable to secure further direct dispatches from Belgrade. Even the official dispatches which have reached Paris appear to have been mutilated. It is stated authoritatively that, thus far there has been no exchange of communications between the powers concerning Prince Peter's assumption of the throne of Servia, but the officials are beginning to seriously consider the delicate question of the recognition of the new sovereignty. It is expected the Servian authorities will convene a meeting of the foreign ministers at Belgrade and present the latter with evidence that the people accept the new government and that it has the ability to maintain order. It is considered probable that the powers will act together on the question of giving or withholding recognition to the new government. It is further stated that if the powers individually or collectively protest against the bloody methods this is likely to occur in connection with the question of recognizing the new government. The latter thus far has not addressed any communication to the powers, the latter receiving all their information from their own ministers or agents.

FLAG FLIES AT HALF MAST.

BERLIN, June 12.—The flag was half-masted over the Servian legation here today. Most of the members of the diplomatic corps called and expressed condolence. Foreign minister Von Richthofen informed the ambassadors and ministers who called at the legation on various business that Germany did not expect complications involving other states as a result of the changes in the Servian government. A dispatch to the Lokal Anzeiger from Belgrade says the provisional government of Servia is bringing troops there preparatory to resisting Austrian intervention if it comes. The backbones of both King Alexander and Queen Draga, it is announced, were broken in consequence of the violence with which the murdered sovereigns were thrown from the windows of the palace.

A special dispatch says Prince Peter Karageorgievich studied at the university there for eight years. The prince at Zurich was called "Redheiter" or "The red Prince." A Tageblatt special from Vienna says, "Austria, it is believed, will acknowledge Prince Karageorgievich as king of Servia after the necessary formalities are completed. This government is not opposed to Karageorgievich and it is said that Emperor Francis Joseph will doubtless receive him in audience if he applies."

BULGARIA IS NOT EXCITED.

SOFIA, Bulgaria, June 12.—Official circles here received the news from Belgrade quietly. It is not considered that thus far recent events require the adoption by Bulgaria of any special messengers.

SOME PEOPLE WANT REPUBLIC.

VIENNA, June 12.—Telegrams from

WILL SIMPLY EXPRESS SORROW.

BUDA PEST, June 12.—In the Hungarian diet today Frank Dessei, who expressed horror at the occurrences at Belgrade, said he would confine himself to an expression of the deep sorrow and indignation produced by the murders, but the consequence could not at present be foreseen.

secretary of legation, at Athens, dated yesterday:

"No new Servian King officially proclaimed. National Assembly decides Monday."

NO CLAIM TO THE SERVIAN THRONE.

VIENNA, June 12.—The Austrian river monitors Zamos, Leltha, Maros and Koerces, are said to have anchored before Belgrade yesterday, but this report is officially denied. "It is reported that the garrison of Nish Servia, has refused obedience to the new government. Prince Alexis Karageorgievich, a nephew of the newly proclaimed King of Servia, who has himself been a pretender to the throne, during the course of an interview here today, announced that he had abandoned all

claim thereto and welcomed the advent of his uncle as the best solution. The Prince, like other well informed persons, attributes the revolution to dissatisfaction at the late King Alexander's marriage to the attendant and to the King's hostility to the radicals.

EXPRESS HORROR AT THE OUTRAGES.

ST. PETERSBURG, June 12.—The tragedy at Belgrade yesterday caused an immense sensation here. The newspapers express indignation and horror at the outrages, parallel to which, they add, are only findable in ancient times. At the same time the papers consider that the interference of the powers in Servian affairs at the present time is not advisable, although developments

might compel Russia and Austria to take action.

RUSSIA AND AUSTRIA QUIET.

LONDON, June 12.—The Servian Minister here has received confirmation of the statement that neither Russia nor Austria will interfere in the Servian choice of a sovereign. He anticipates that Prince Peter Karageorgievich will await a summons from the Skupstchina, a deputation from which will probably go to Geneva and escort the new King to Belgrade.

STRAIGHT JACKET ON WALKER.

MURDERER BREAKS DOWN AND IS ATTACKED WITH EPILEPTIC FITS.

Despite his declarations that he would meet his doom like a brave man, Victor Walker, the self-confessed murderer of Elizabeth Leroy, is a mental and physical wreck as a result of brooding over his crime.

He became hysterical in his cell in the City Prison last night and his actions necessitated that he be placed in a straight jacket to prevent him from doing himself bodily harm. At 1 o'clock this morning, City Physician Adelung was called to the City Prison to attend the murderer and during the early hours of the morning

Walker was attacked with two epileptic fits.

About 5 o'clock this morning the prisoner recovered somewhat and the straight jacket was removed and he passed into a regular sleep from which he did not awake until 10 o'clock. At that time he summoned Chief of Police Hodgkins and said, "I feel like a fighting cock; Chick and would like a hard breakfast. A large steak, a couple of eggs, fried potatoes and a cup of black coffee would go about right."

Chief Hodgkins good-naturedly gave the order to a restaurant and the meal was served to the prisoner and he ate with a decided relish.

Walker is smoking brown paper cigarettes almost constantly and he says that by doing so he can keep his mind off his horrible crime. According to the trusty who is guarding the murderer's cell, Walker is unable to sleep for more than an hour or two at a time.

Both Hatlie Cochrane and the Rosa woman are being held pending an investigation into the law as to what charge if any might be placed against them.

CLAIMS HUSBAND IS INSANE.

John McQuinn was arrested last night at his home, 4400 Howe street, on complaint of his wife, who charges him with being insane. She claims that at times he is violent and that she is afraid of being attacked. He will be taken before the commissioners and examined.

CYCLIST INJURED BY A CAR.

BOY JAMMED BETWEEN WAGON AND CAR IS STRUCK BY LATTER.

Thomas Jaques, a boy, 15 years of age, was riding his bicycle down San Pablo avenue this morning when he became jammed between a wagon and an electric car and was severely hurt. It is believed that his leg is broken, and that he has received internal injuries.

Jaques is the son of S. P. Jaques of 2314 Seventh street. He stated that he was coming into town on San Pablo avenue on his wheel beside a car. When between Eighteenth and Nineteenth streets, a wagon came so close to the car that the boy was jammed between them. He attempted to go ahead and was struck by the car and knocked out to one side. The police patrol was summoned and he was removed to the Receiving Hospital. The extent of his injuries cannot be ascertained at present.

WAGNER GOES TO MANY BOOSTERS WILL CELEBRATE JAIL. NEEDED. THE FOURTH.

THE WIFE BEATER GETS THREE MONTHS IN SPITE OF WOMAN'S TEARS. IMPORTANT MEETING TONIGHT IN CONNECTION WITH COUNTRY STORE. TWO CENT FARES LENGTH.

ALAMEDA, June 12.—The Wagner wife-beating case was continued before Judge Tappan this morning. Assistant District Attorney Hyatt was not present to act for the people so Mrs. Wagner took the stand again and related that her husband had been trying to break off drinking for the past fourteen months and last Sunday was the first fall from grace, caused probably by his having seen her take a glass. She went and pleaded if the judge would let Wagner off with a little speech in town and there would be no more trouble. The court objected to her playing on his feelings with tears, as it made it very unpleasant for him in the performance of his duty.

Wagner then took the stand in his own behalf. He tried to tell how the affair had happened. He stated that on Sunday morning he had been questioned by Bill Cary, his neighbor, who over and over again since then, he himself was repairing his wagon. After some time, he noticed Cary and Mrs. Wagner, and he acted as if they had been drinking. Cary said he had cleaned the harness, but Wagner disclaimed the harness, and he was pushing Cary away from the harness when the woman stepped in between them, and he accidentally hit her on the nose with the hammer he was holding. Wagner admitted that he had twice been arrested before for wife-beating, and had served three months in jail. Judge Tappan told Mrs. Wagner that she had no business associating with Cary as he had little character. The court then made a little speech in which he said that he had known Wagner from boyhood, and hated to send him to jail. At the previous hearing he was ready to give the man six months, the regular sentence, but since the hyperbolic and insubstantial of narration of heart valves.

BICYCLE THIEVES ARE ACTIVE.

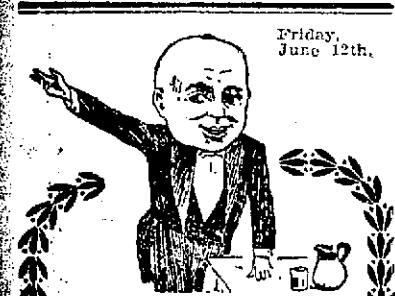

ALAMEDA, June 12.—Bicycle thieves have been active in this city for some time and as a result several former owners of fine machines are walking and waiting.

MOVING DESKS AND APPARATUS.

ALAMEDA, June 12.—These are busy days for the School Department officials. They are at work under the direction of Superintendent Chas. C. Hughes, in moving desks, laboratory and other paraphernalia from the Porter School building into the new high school building which is to be ready for occupancy at the beginning of the fall term. This will prove highly satisfactory to teachers and students alike, as last year the situation was almost unbearable. The classes had to be crowded together in both the Porter and Heights schools. The new high school relieves the congestion to a great extent.

DEATH WAS ACCIDENTAL.

ALAMEDA, June 12.—"Death was caused by accidental asphyxiation by submersion in the waters of San Francisco bay," is the verdict of the Coroner's jury on the drowning of Little Lester Giles. Last Saturday, while bathing on the shore with his brother and a companion, he got in over his depth and was drowned. His father and uncle recovered his body some hours later.

W. W. Goggin is the chairman of the invitation committee.

NEARLY KILLED AT HORSES HEELS.

Martin Lundson, living at 688 Madison street, was treated at the Receiving Hospital this morning for a laceration of the scalp that came nearly being a fatal wound. He stated that he was in process of harnessing a horse, and that in carrying the harness behind the animal he slipped and fell off the horse, was frightened and let loose with both heels and Lundson received a glancing wound from the iron shoe. To the horse's collar that he had on his arm he attributes the saving of his life. The shoe first hit it and glancing struck his head. Had he received the blow direct it would in all probability have killed him. As it was the scalp had been laid bare to the bone and inflicted a painful injury.

TOOK ALCOHOL.

WIFE OF WELL KNOWN WOOD CARVER TAKES WOOD ALCOHOL AT YOSEMITE.

Yosemite, June 12.—Quite a sensation was caused in the valley this morning when it was learned that Mrs. Starke, wife of Julius Starke, a well-known wood carver of Santa Barbara and the Yosemite Valley, had died by taking wood alcohol. When the fact that Mrs. Starke had taken alcohol became known, a physician was hastily sent for. He labored over the prostrate form for several hours, but without avail. Different kinds of antidotes were administered and the stomach pump brought into play but with no result. Whether the taking of the alcohol was a mistake or premeditated is not known. The husband of the deceased declares that it is not a case of suicide. Mr. and Mrs. Starke were married in Santa Barbara last winter and had only been in the Yosemite Valley a few weeks.

ALAMEDA, June 12.—The West End Alameda Improvement Association held a lengthy session at the Wigwam last evening. Ex-Trustee Alexander Mackie brought up the matter of giving a Fourth of July celebration this year. He said: "The subject you have under consideration, the celebration of the Fourth in West End, is one which appeals to all of us. There are many who will not go to Oakland or elsewhere, but will prefer to stay at home on the Nation's holiday and patronize home amusements."

It was decided to have an old-time celebration back of the Wigwam in the Neptune Gardens on the bay shore. There will be speeches, music and other entertainment, with fireworks in the evening. Ernest Crosby and George Hickman were appointed as an Entertainment Committee. A subscription list will be opened and the whole town will be invited to participate in the preparations. The Improvement Club will head the list with \$25.

A delegation from the Alameda Board of Trade, consisting of President H. Rosenthal, Halvor Hauch, C. F. Fischer, Benjamin J. Smith, Captain J. A. Durkee and others, were present at the meeting. Mr. Hauch addressed the members on the proposition of requesting the railroad to give a reduced rate of fifty rides for \$1 in the town. He said the board had submitted the matter to the railroad officials after having been told that the gates would not be taken off the cars as they paid too well. The board informed the officials of the fact that it would have to take \$1000 worth of the books, but has as yet received no answer. The speaker requested the cooperation of the West End residents in this movement for low fares. On motion of S. S. Green, a resolution was passed that the association unite with the Board of Trade in petitioning the railroad for the two cent fare on both lines.

Ex-Trustee Mackie did not believe that the railroad could lawfully compete with a street car line and give lower fares. They were not built for local traffic in a city. He also spoke of the railroad's rights on Railroad avenue, saying they had some property there which gave them the privilege of having tracks on the street. Chief of Police Hodgkins arose and said that the City Attorney had looked the matter up and found that the company had no rights on the avenue. Since last Wednesday trains have been running without the company having a franchise. This company had paid \$7,000,000 for that franchise and the business must therefore be pretty good to give returns on that amount. He believed there was no necessity of being gentle with the railroad, even though it had no competitor. Alameda was paying it a much more money than there was no danger of their quitting operations on the demand for lower fares. Ex-Mayor Davis of Oakland, he said, was the one to be thanked for the 10 cent ferry rate, and not the railroad.

A number of members were in favor of requesting the street car company to extend its Santa Clara avenue line west to Fifth and thence back to Pacific avenue to Webster street.

J. T. Hardin, of the north side spoke in favor of the proposed ordinance prohibiting dairies in the city limits. Rev. Brindley objected, saying a man ought to be allowed to have one cow. Another member wanted all chickens to be excluded from the town.

It was decided to hold a meeting of the Board of Trustees Monday evening in a body to show an interest in public affairs.

MRS. COOPER IS GIVEN A DIVORCE.

Mrs. Sarah Cooper was granted a divorce this morning from her husband, F. T. Cooper, a Berkeley contractor, on the grounds of intemperance and cruelty. Mrs. Cooper was also allowed \$75 a month alimony.

The Cooper's difficulties first became known some time ago when Mrs. Cooper took steps to prevent her husband, as she alleged, from drawing \$4,000 from the Berkeley bank and taking this to some foreign port where she could escape from trouble and he could be at rest. She claimed that the money was community property and secured a temporary restraining order on the bank preventing it from paying out the money until the divorce matter had been finally disposed of.

By the decree Mrs. Cooper has tied up the \$4,000 until the final decree goes into full force and effect, a year from now. She thus secured a temporary remedy which she has been given a homestead on the family home at 1787 Francisco street, Berkeley, and the custody of their only child.

ARRESTED AS SUSPECTS.

The police last night arrested two young Mexicans at the foot of Castro street on suspicion of having assaulted Mary Silva in Contra Costa county, but after a further investigation, it was found that the men had arrived from Stockton yesterday morning and could not have been the child's assailants, so they were released.

LOST HIS FINGERS.

J. G. Perkins, 22 years of age, and living at 3234 Central avenue, Alameda, had his hand caught in a buzz saw this morning and it was so badly lacerated that it necessitated the amputation of several of his fingers. He is a mill-hand and his injuries were attended to at the Receiving Hospital.

KILLED ON ROOF OF PALACE.

VIENNA, June 11.—[Dispatches from Belgrade say that since the late King Alexander's last suspension of the Serbian constitution the army had been animated to hostile feelings toward both the king and queen. The revolution was planned weeks ago. Secret committees were organized in the country and worked in co-operation with the army.

The leaders of the revolution are said to have been the new ministers of justice and finance, respectively, M. Scholokovich and M. Veleckovich, and the sixth infantry, garrisoning Belgrade, was designed to carry out the plot. It was originally intended that the plots would be executed later but fear that the new Serbian parliament would settle the question of the succession to the throne hastened matters. Colonel Naumovich, the adjutant of the king, was entrusted with the execution of the plans. While on duty at 11 o'clock last night Naumovich burst in the door leading to the sleeping apartments of the royal couple with a bomb, and then entered, accompanied by Mischich and a number of junior officers. Previously the palace guard had been overpowered and its commander, Captain Pauzajewicz, was killed.

Naumovich presented to the King a form of abdication for his signature. The document contained the statement that by marrying a "public prostitute" the King had degraded Serbia and that, therefore, he must himself now abdicate. The King's answer was to draw a revolver and kill Naumovich on the spot.

Mischich then picked up the document and presented it again to the King, who, perceiving his danger, fled with Queen Draga to the palace roof, both being in their night clothes. The officers followed, continuing to bring and ultimately shot the royal couple down.

Major Laku Lavarewicz, who had been under the King's displeasure for two years, is said to have fired the shot that actually killed the King. At about 2 o'clock this morning Queen Draga's two brothers were shot at their homes.

PRINCE WAS ASTONISHED.

GENEVA, June 11.—Prince Peter Karageorgewitch, who has been living here for some time, appeared to be greatly astonished at the news of the assassination which he said he had only learned through a private telegram from Vienna.

NEW KING IN MODEST HOME.

GENEVA, June 11.—Prince Peter Karageorgewitch lives in a modest apartment house on the Rue De La Bellevue. Recently he has been in constant communication with Serbian politicians, has been several times to Vienna and he also has visited St. Petersburg, where his son is at school.

NEWS RECEIVED IN WASHINGTON.

WASHINGTON, June 11.—News of the assassination of the King and Queen of Serbia and the proclamation of Peter Karageorgewitch as king reached the State Department today in a cablegram from United States Vice-Consul General Christian Bogditch at Belgrade. This cablegram is dated June 11, and is from town, six miles across the border, where it was necessary for Mr. Bogditch to go to get it off. It is the hour of the revolution at 10 o'clock this morning. Mr. Wilson, secretary of the legation at Athens, also called the news, saying the "Minister left for Belgrade Tuesday."

CRIME WAS WELL PLANNED.

BELGRADE, June 11.—According to the best available information obtainable the crime was carried out by members of the Sixth Infantry, under the command of Colonel Mischich and Maeli. The latter is a brother-in-law of the late Queen Draga and is minister of public works in the new cabinet. The soldiers appear to have fought their way in to the palace, shooting down the aide-de-camp on duty, Colonel Naumovich, although, according to another version, the King shot him because he opened the gate to his assassins, thereby creating a suspicion of his complicity. Some of the other persons killed were surprised in their houses, simultaneously with the attack on the palace. The bodies of all the dead will be placed in coffins during the course of the day. The remains of King Alexander will probably be buried at the Cemetery of Rakovica. The other bodies will be interred in the local cemetery.

NEW KING IS KNOWN IN PARIS

PARIS, June 11.—The startling announcement of the assassination of the King and Queen of Serbia caused a deep sensation here, particularly in government circles. The foreign office received early advice from the French minister at Belgrade confirming the Belgrade press dispatches and adding that the city was comparatively quiet this morning, the people seemingly to accept the proclamation of Prince Karageorgewitch as king. Foreign Minister Delcasse communicated his advice to President Loubet. Late officials of the foreign office say it is too soon to indicate clearly the effect of the situation in Serbia on the European situation. Serious dynastic troubles have long been impending, the present uprising being due to the enmities growing out of the propaganda of the Pretender Karageorgewitch. It is recalled that when the Karageorgewitch dynasty secured brief rule in 1868, the European powers intervened and established a protectorate and thus terminated that dynasty. Whether there will be similar action of the powers at this time officials are unwilling to predict, saying the shock of the tragedies is principally occupying attention. It is

ARE THE SEQUEL OF THE KING'S COUP MONTHS AGO WHEN HE SUSPENDED THE CONSTITUTION, OUTLAWED THE DISGRACE AND RETIREMENT OF A NUMBER OF SENATORS AND LEADING OFFICIALS.

The new King is well known here, having frequently visited this city. He has a cousin, Prince Bodjkar Karageorgewitch, living on the Avenue Boule De Lognon, who took part in the French campaign in Tonquin and was decorated with the cross of the Legion of Honor. In an interview today Prince Bodjkar said he considered that popular hatred of Queen Draga was largely responsible for the events at Belgrade. He added that his cousin, the new King, had long aspired to the Serbian throne and declared that the family was closely allied to Russia, thus assuring a pro-Russian policy in Serbia.

Dr. Petrovich of the Serbian legation described the new King as a student of state, as being intensely animated by Serbia's political destinies and as an admirer of Russia. The newly-proclaimed King, Dr. Petrovich added, is sending his son to St. Petersburg, where he will be educated at the expense of the Imperial court of Russia.

For several days frequently sought to induce the new King to attempt to take the throne of Serbia, but he always replied that he would not permit a dynastic contest to provoke a civil convulsion and he preferred to await the result of the popular weariness resulting from the old regime.

A French official said:

"The bloody deed of last night is the most pressing menace to the general peace of Europe that has happened in many years."

ROYAL BODIES IN BAGGAGE WAGON.

BELGRADE, June 11.—Cannon and soldiers surrounded the ministry at the same time they moved on the palace. After the drama at the palace, officers paraded through the streets shouting out the news that the King had been killed. Queen Draga is said to have sustained numerous wounds.

A post-mortem examination was held on the bodies in the palace at 11 this morning. The local papers published their reports of the tragedy with all sorts of statements. According to one of them, the bodies of the King and Queen were placed in shrouds and were lowered from a window of the palace to the gardens, whence they were carried away in a baggage wagon.

CAREER OF THE DEAD KING.

Alexander I. King of Serbia, was born August 14, 1876. He is the son of Milan I. King of Serbia, born August 22, 1854; died February 11, 1901, and of Nathalie, daughter of Colonel Keschko of the Russian Army.

King Milan abdicated March 5, 1899, and proclaimed his son, Alexander, King of Serbia, under a regency until he should attain his majority, eighteen years.

King Alexander on April 13, 1899, being then in his seventeenth year, took the royal authority into his own hands.

On August 5, 1900, he was married to Draga Maschin, who was born September 23, 1867.

Alexander is the fifth of his dynasty which was founded by Miles Todorovic Obrenovic, leader of the Servians in the war of the insurrection to throw off the yoke of Turkey, which had lasted since 1459.

The war lasted from 1815 to 1839, when the Turkish government was compelled to grant virtual independence to Serbia. By the terms of the treaty signed September 14, 1839, Miles T. Obrenovic was acknowledged King of Serbia, and by a subsequent Armistice of the Sultan, dated August 15, 1840, the dignity was made hereditary in his family.

The independence of Serbia from Turkey was established by article 34 of the treaty of Berlin, signed July 13, 1878, and was solemnly proclaimed by Prince (afterwards King) Milan at his capital August 22, 1878. The King's civil list amounts to 1,200,000 dinars.

NEGRO MURDERER IS CAUGHT.

RATON, N. M., June 11.—The negro porter who murdered Marshal Jones was captured this morning and, together with his two companions, are now in the custody of the Sheriff. No demonstration against the prisoners were made by the infuriated citizens today, but great excitement prevails and it is generally believed that the three negroes will be lynched tonight. The jail is weak and the Sheriff and his deputies could make but little resistance.

WOULD DISTRIBUTE H. TUBBS' ESTATE.

Petition for the final distribution of the estate of Herman A. Tubbs, deceased was filed with the County Clerk today.

The estate is valued at \$164,844. By his will Tubbs left twenty-one shares of the capital stock of the Union National Bank and thirty-three shares of the Capital stock of the Union Savings Bank of this city to Herman D. Nichols. The rest of the estate is left to Alice Tubbs, widow of deceased and Susan A. Tubbs, his mother. Tubbs was killed while driving near Sausalito on June 16 of last year. All outstanding debts against the estate have been paid. The property is ready for distribution.

OLD JEROME.

When I'm dead, on my tombstone I hope they will say:

Here lies an old fellow, the foe of all care;

With the juice of the grape he would moisten his clay.

And wherever he went, frolic followed him there.

With the young he would laugh, and with the old he would quarrel.

And banish afar all traces of sorrow.

Old Jerome would say:

"Though the sun sinks today,

It is certain to rise up as gaily tomorrow."

Tho' the snows of old age now may whiten his brow,

It never by gloom was a moment overcast;

His age, like the sunset that gleams on impending morn,

Chased away with its brightness, the clouds to the last.

With the young he would laugh, and with the old he would quarrel.

And banish afar all traces of sorrow.

Old Jerome would say:

"Tho' the sun sinks today,

It is certain to rise up as gaily tomorrow."

—Samuel Beazley (1789-1851).

MINISTRY NOW IN POWER.

BERLIN, June 11.—The members of the provisional ministry of Serbia form an energetic group. Each one is a person of some celebrity in Serbia.

M. Avakubovic, the new premier, was premier on the Liberal government of 1892, and previously was minister of justice and judge of the court of appeals, and is the best known jurist in Serbia.

M. Protic, the new minister of the interior, is the most prominent leader of the radicals and an able speaker and writer.

M. Kallewicz, the new foreign minister, was premier in 1876 and later minister at Vienna. Later still, he had been a senator and has been occupying a neutral political position.

M. Scholokovich, the new minister of justice, sharply criticized the doing of the royal pair in the last parliament. Like M. Protic, he was condemned to twenty years' imprisonment because of his complicity in a plot against King Milan, but he was pardoned.

M. Genshich, the new minister of commerce, served two years in prison on the charge of high treason for his opposition to the late King Alexander's marriage.

M. Veleckovich, the new finance minister, is a former member of the cabinet.

SAILOR STRUCK BY A FALLING PLANK.

Charles Olsen, sailor, employed by the Southern Pacific Railway at the narrow gauge mole, where the pling is being rebuilt, was severely injured this morning by a falling plank, which struck him on the head and shoulders. He was knocked senseless and was removed in the police patrol to the Receiving Hospital, where he was attended to by Dr. Curdick. It is feared that his shoulder is fractured. He is 49 years of age and lives at 5 Commercial street, San Francisco.

WONDERFUL PICTURES.

A Frenchman is at work in a studio near Broadway and Twenty-ninth streets on some marvelous pictures. His shop is next to the roof of a private house, one of the old brown stone fronts. In a small room you may witness dissolving views and magic visions appearing in their places. The room is darkened after you have looked with admiration upon a young maiden lying drowsily in a hammock. She is completely and most modestly and becomingly clothed. An electric machine is set in operation in a closet. Presently the clothes of the girl fade away and you are amazed and shocked by the confrontation of a female form divine as innocent of drapery as Mother Eve herself. The machine, continuing to revolve, the girl is clothed again before your eyes.

Another picture is a ball in a swell palace in the Highlands of Fifth avenue, the women in matchless gowns, the men in evening dress. The dance is at its height, and quite respectable. The room is darkened and the machine turned on. As you gaze an astounding transformation takes place. The women turn into nymphs and the men into satyrs, and the dance is a mad revel, such as Billy McGilroy never directed in his palmist street days. When the lights are on again there is the respectable Fifth avenue ball once more in all its "gauleteness."—New York Press.

THE TREES WE READ.

Nine successful novels recently published in the United States had a total sale of over 1,600,000 copies. Since the average weight of each book sold was probably twenty ounces, a little calculation will show that these 1,600,000 books contained approximately 2 million pounds of paper. A manufacturer of paper asserts that the average spruce tree yields a little less than half a cord of wood, which is equivalent to about 500 pounds of paper. In other words, the nine novels swept away 4000 trees and their form but a small part of the fiction so eagerly read by the American public.—Chicago Daily News.

TELL OF PLOT TO KILL ROBERT J. BOYER TO MARRY

TESTIMONY, BEING GIVEN AT THE TRIAL IN JACKSON.

JACKSON, Ky., June 12.—Provost Marshal Longmeyer reported today that no arrests were made during the night. Lieutenant Kinnard, who was sent after the missing witness, Henry Eriman, has returned without his man. When court opened today Attorney Neill, for the defense, filed a motion asking that the Marcum case be continued as the defense needed three other witnesses. Judge Redwine decided that the trial should proceed. The first witness today was Wm. Hurst. He was to be a witness concerning the plot to kill Marcum in which two county officials were implicated. The absent witnesses are said to have been in the plot. One of them, afterward made an affidavit that he kept Marcum informed. He also gave Marcum an affidavit, stating that the plots were formed in the office of Judge Hargis and the judge and sheriff were furnishing the money. Mrs. Johnson testified also to this information being furnished her brother by Pelter, one of the three witnesses missing. Pelter has forfeited a bond of \$3,000 after being granted a new trial for the murder of Jesse Fields. Marcum secured a reversal in his case. Because he was a friend of Marcum, it is alleged he was picked out to assassinate him as he would not be suspected, a pardon for the Field murder being the reward promised.

LARGE LOSS BY FLOODS

FEEDSTUFFS WERE RUINED BY WATER IN KANSAS CITY.

KANSAS CITY, Mo., June 12.—Hay, grain and feed stuffs, valued, it is estimated, at between \$750,000 and \$800,000, which was destroyed while in transit at or near Kansas City by the recent floods will doubtless be the source of numerous suits from shippers to secure damages from their agents. The Kansas City Board of Trade has appointed a committee to try and find a basis of settlement. It is estimated that 700 cars of wheat and corn and 500 cars of hay and feedstuffs were destroyed. Some Kansas shippers have telegraphed their Chicago shippers to re-ship the grain to Kansas, so they can feed it to hogs. Railroads are making an emergency rate for spoiled grain, but there is almost none to ship.

LONDON, June 12.—A special dispatch from Elzgrade says the bodies of King Alexander and Queen Draga were buried in a large pit dug in the village of Rakovic and as a mark of ignominy, the bodies of their murdered relatives and those of the ministry killed were placed above them and then the common grave was filled with earth.

MISS ALICE DIETZ IS TO BE THE HAPPY BRIDE.

Ex-Councilman Robert J. Boyer, the genial Adonis of the City Council, which has just gone into history, is to be one of the grooms of the present month and his bride is to be Miss Alice Dietz, daughter of A. C. Dietz, the well known capitalist of 5403 San Pablo avenue, who divides his time between this city and Ventura, in both of which places he has extensive property interests.

The fact of the engagement, which we know, couple has been known to intimate friends for some time past, but the cards for the wedding have only just made their appearance.

The ceremony will take place Tuesday evening, June 23d, at the beautiful home of the bride, which is situated in one of the most unique mansions to be found in this or any other part of the State. The residence is partly embowered in the greenwood and the acme of art in landscape gardening has been attained in embellishing and intensifying the charms which nature has lavished upon the scene.

The ceremony will be followed by a reception from 9 till 11 o'clock, to which a large number of the friends of the contracting parties have been bidden.

The marriage will be followed by a honeymoon of several weeks in the southern part of the State. When Mr. and Mrs. Boyer return, they will occupy a palatial home, which Mr. Boyer is building at Tenth and Adelphi streets.

Mr. Boyer is one of the best known young business men in this city. He was formerly in the clear business located at the northeast corner of Broadway and Seventh street, where his manufacturing business was done in San Francisco where it is still continued. He is genial and popular and has a business which extends all over the State. He is a member of the Republican Alliance, the Elks, the Reliance and other organizations and, two years ago, was elected by a good plurality to the City Council from the Fourth Ward.

Miss Dietz is one of the best known young ladies of the city and Mr. Boyer, the prospective groom, is receiving the warmest congratulations of his friends over the success he has achieved in his wooing.

BARD WILL NOT RESIGN

WOULD NOT DISCUSS POLITICS BEFORE HE LEFT FOR EUROPE.

LOS ANGELES, June 12.—When Senator Thomas R. Bard left last night on the Owl for three months' trip abroad he refused to make any statement regarding politics or as to whether or not he would be a candidate for re-election to the United States Senate. Senator Bard said he had put aside the discussion of politics until his vacation was over and declined to define his position in any way. The report of his intention to resign from the Senate is not credited by his friends here. During numerous interviews here this morning with prominent friends of the Senator, according to the Express, no intimation was given that he would not be a candidate for re-election.

WOULD NOT TALK.
SAN FRANCISCO, June 12.—Senator Bard, who arrived here today from Los Angeles, refused to be interviewed regarding the rumor that he intended to retire from the Senate, stating that he was taking a trip for recreation and would not discuss politics.

MAN WHO MURDERED SA'S HE SERVED HIS COUNTRY.
TRY.

BERLIN, June 12.—An investigation of the report published in the United States that it was believed in official circles here that the throne of Serbia would be offered to Prince Marko, of Montenegro, shows there is no foundation for it. An interview with Colonel Mischies, who was the leader of the military party, is published here. The colonel is quoted as saying: "There was a number of us. Whether it was I or another who fired the first shot is simply conjecture. The chief point for us is that our work was successful. I have rendered the Fatherland a tremendous service and we are highly satisfied with our success. The first shot at M. Petrovich, was from the revolver of Captain Risties, who is a noted marksman. Petrovich was hit in the forehead and fell dead instantly."

DEMAND IS MADE FOR BOOKS

EXPERTS WILL LOOK INTO AFFAIRS OF EPPINGER & COMPANY.

SAN FRANCISCO, June 12.—The warehouse books of Eppinger & Company have not yet been turned over to Receiver Wadsworth. A formal demand was made for the books yesterday, and Attorney Ach, representing the members of the firm of Eppinger & Company, asked to be allowed until this morning before acceding to the demand. This morning he said he would give an answer some time this afternoon.

Expert accountants have been engaged to go over the books the moment they are produced. This morning, J. Jenkins, an expert accountant, was in attendance at the office of Eppinger & Company, ready to commence the work of experting the books, but there was little for him to do.

WILL GRADUATE FROM THE DEWEY SCHOOL TONIGHT. LIFE STORY OF SAINT.

MUCH INTEREST IN SERMON: BY FATHER YORKE AT EAST OAKLAND.

Rev. Father Peter C. Yorke, pastor of St. Anthony's Church in East Oakland, delivered a sermon at 7:30 last evening on "The Saint of Padua." It was the second of a series, on the life of the patron saint of the church, St. Anthony. Tonight he will preach on "The Saint of the World," and on Sunday morning at high mass, he will deliver the fourth and last of the series. On that occasion his subject will be "The Blessed Sacrament."

The sermon of last night was listened to with greater interest than the first of the series which took place on Wednesday evening.

Father Yorke spoke of how God does not count the years spent by men on this earth, but by the work they have accomplished. In support of this assertion he held up the life of St. Anthony, whose name and fame have lived through four centuries, and who died while a very young man.

Then followed a detailed history of the patron saint's life from his birth until the time of his death, thirty-six years later at Padua, where he had been for three years.

The speaker dwelled at length on the work accomplished by St. Anthony, the good he did and the many and difficult obstacles he had to overcome.

BASEBALL NEWS FROM MANY DIAMONDS IN THE STATE.

FAMOUS WARRIOR SUCCEEDS TO THIRD STROKE OF PARALYSIS.

A large crowd assembled at the Mechanics Pavilion annex in San Francisco last night to witness the amateur bouts pulled off by the Bay City Club, and they were rewarded by seeing a number of closely contested matches that were good exhibitions of the athletic art. The matches were refereed by Milton Hayes and announced by Billy Pratt.

The principal go of the evening was that between George Peterson and Al Young. It was nip and tuck, give and take throughout and brought the crowd to their feet. The latter was evenly divided in their choice and as the men miked it they would howl their encouragement. At the end of the scheduled four rounds, it was impossible to say which of the men had the better of the contest but as draws are not allowed at amateur bouts, the referee gave the decision to Peterson. This brought forth hoots and hisses from the Young adherents of which there were five, were all fast and exciting, thus furnishing excellent sport. Al Elkins was a little better than George White and won their bout, while Dick Cullen trimmed Billy Battin's capricious for pugilistic honors. The latter tried to win with one punch, but invariably punched the air over his opponent's head. George Braun, the Olympic Club wrestler, was strictly in it in his bout with Jack Brophy, the sailor, and put him to sleep in the third round.

The referee was instructed by the police to stop the bout between Low Powell and Jack Evans in the second round as there would not be enough sticking plaster to repair the damage done in Evans if the match continued. The first event was between heavyweights and was a good one. The principals were Gus Koster and Tom Sears, the baseball man, and after going the limit, Sears succumbed to the prowess of Koster.

COAST LEAGUE STANDING.

Los Angeles 41 25 641
Sacramento 38 25 609
San Francisco 38 25 607
Oakland 39 41 614
Seattle 21 37 393
Portland 21 36 368

Sacramento, Portland and San Francisco were the winners of yesterday's ball games, and by the win of yesterday Sacramento crawled into the 600 class and is looking pretty close to Morley's heels.

Pete Lohman's Recruits lost their third consecutive game to Mike Fisher's outfit of novices across the bay yesterday, but it took them ten innings to do it. At the end of the ninth inning the score stood two to two, and things looked interesting until old "Josh" Reilly had to spoil it with a home run over the right field fence.

Down in the sunny south the "Frisco bunch" of baseball artists got away with the Los Angeles by a score of 5 to 3. They won the game in the fourth inning by piling up four runs before the Southerners could recover their breath. With the exception of that one inning, Gray pitched excellent ball as did Luby.

At Seattle the Browns from Portland had their pretty much their own way and best the Seattle team 5 to 3. Both Semple and Butler pitched good ball.

Josh Reilly, who is taking care of the third state for the Senators, was on deck throughout the game and was one of the features. Twice during the game he made difficult stops and pulled Fitzgerald out of a hard hole. He made four trips to the bat and made three hits, one of which was a home run, and one of the two-sack variety and the third a clean single.

"Red Dog" Devereaux firmly believes in seizing every opportunity of getting to the first base yesterday by managing to escape being hit by executing a star contortion act and started for first. Umlair McDonald called him back, saying: "You haven't been hit." Bill replied as follows: "No, but I came darn near it."

Ishman tried playing O'Hara at second base and saw the error of his way after O'Hara had made three errors. He then sent him to the outfield garden, where he belongs and put "Moose" Baxter on second. The latter celebrated his advent into the infield by catching Egan on a slide and put him out many times to make sure that the umpire would see it.

Oscar Jones, who did such excellent slab work for Morley last year and is now playing with Brooklyn, distinguished himself this week in a game with Cincinnati, when he shut the Reds out with but three dinky little hits.

FOLEY IS BACK.

HE FOUND THAT THE COLORED MAN IS A HARD GAME.

Harry Foley and his party, consisting of Eddie Hanlon and Mike Short, have returned from their trip to Los Angeles where Foley fought Woods on Tuesday night and won on a foul.

On their return to San Francisco, they were met at the depot by a crowd of admirers from the Alhambra Club, of which they are all members, and escorted to the club quarters, where they held an informal reception.

Foley is pretty sore from his recent injury and display a badly swollen neck. In speaking of his fight he said: "Look at my neck. That's what that colored man gave me. When I left that city I was told how this fellow fights. It took me two rounds to get on to his style. Before that I was knocked down for the count several times. In the fourth round I landed with both hands on the jaw. Woods was so surprised that he started his foul tactics. My neck is quite sore. But I want to prove to the Southern sports soon that I can beat this Mr. Woods."

There is to be a special matched game bowled tonight on the Oakland bowling alleys on Thirteenth street, between the Eagles team of this city and a team from the Crescent alleys in San Francisco. The match will consist of three games rolled by each player and the total score will determine the winner.

Both teams number the best rollers on the coast in their line-up and should put up a gilt-edged contest. It is needless to say that the local bowling enthusiasts will be out in force tonight to lend encouragement to the home team.

The line-up of the Eagles team will probably be Bird, Berquist, Bernhisel, Keamey and Johnson. Each of them are strong individual bowlers and are good for an average of 180 each.

Tomorrow afternoon, at the baseball park in Butte, Montana, Jimmy Britt, California's premier light-weight, and Jack O'Keefe will meet in a twenty round boxing contest for the second time.

The match will carry with it the white light-weight championship of the world. Both men are expected to the hour and will step into the ring in the finest possible condition. O'Keefe has been in the mining town for some time past and has trained faithfully in hopes of demonstrating to the world at large that he can defeat the Californian. He believes that he would have won the fight at Portland a few months ago, if he hadn't gone down and out on a foul blow and says he intends to win this time without being fouled.

Jimmy has only been in Butte for about ten days, which has been sufficient for him to become acclimated and kept the edge on his condition, as he kept himself in condition from his fight with Fitzgould in anticipation of the return match with O'Keefe, or a match with Joe Gans. Both Jimmy and his brother, manager, Willie, are bubbling over with confidence and the former will proceed to show O'Keefe that he has a few tricks yet to learn about the game. Jimmy is not going to take any chances of O'Keefe getting the decision on another foul. In short, Jimmy proposes to knock the Chicago boy out in very short order.

Considerable betting is being done in Butte on the fight and Britt is a long favorite at two to one, but there are plenty who like O'Keefe's chances and he is not going to beguile at those odds. Arrangements have been made to take pictures of the fight for moving picture machines.

NEW YORK, June 12.—Robert Neill, a wealthy resident of Los Angeles, Cal., who was a first cabin passenger on the White Star liner Germanic, which arrived from Liverpool today, reported to the police on his arrival that he had been robbed on Wednesday last, while in mid-ocean of drafts and money stolen in the amount of \$20,000. The money stolen was the price of a safe of an estate in Belfast. Mr. Neill landed here penniless and was unable to pay his bills. He is now in the hands of the detectives as he is investigating.

LOS ANGELES, June 12.—Robert Neill, reported to have been robbed on the White Star liner Germanic while en route from Liverpool to New York, is well known here, where he has sided and child. It is not known that Neill had any property in this city except the house in which he lived on Forty-sixth street. He was the owner of an estate in Ireland, as stated, and lived on the income from this property. Neill left here several months ago to close out his Irish property.

MOTHER USES SLIPPER TO DEFEND HER SON.

As a result of a petty quarrel among children A. J. Munroe of 63 Linden street was arrested on a charge of battery today preferred by 15-year-old Tony Gellio, of Fifth and Linden streets. Tony and the 12-year-old son of Mr. Munroe became mixed in a yesterday afternoon, for the count several times. In the fourth round I landed with both hands on the jaw. Woods was so surprised that he started his foul tactics. My neck is quite sore. But I want to prove to the Southern sports soon that I can beat this Mr. Woods."

A QUIET WORD.

But Worth the Ear of Every Man Who Suffers.

It rarely happens that a proprietary remedy is considered so valuable that druggists will be willing to pay liberally for the exclusive privilege of selling it. Such, however, was the case with that great curative, Dissolvine, the agency for which was secured some well-known druggists of Seventh and Broadway. Prior to that time there must have been many very unsatisfactory, so-called remedies for gleet and gonorrhea, offered to sufferers in this city. Once the marvelous properties of Dissolvine became known, its sales increased wonderfully. It would be easy to secure a thousand testimonials for this remedy, so great has been its success; but there is no need to do this—it is its own best exploit.

Dissolvine is applied before going to sleep and gives immediate relief. It does not interfere in the slightest with a man's regular habits. It is put up in each of which costs but twelve and one-half cents. If you have no need of such a blessing, drop a hint to your suffering friend.

PROPERTY OWNERS AT RANDSBURG ARE DISCOURAGED BECAUSE OF STRIKES.

BAKERSFIELD, June 12.—The recent strike of miners employed in the Yellow Aster property at Randburg has so discouraged property owners, that no attempt will be made to rebuild the town which was recently destroyed by fire, until at least, the strike question is settled.

A special to the Californian from Randburg says: In an interview today, C. A. Buchanan said: Yellow Aster would not recede from its position. Four or five mechanics are at work cleaning out the mill and making ready for a permanent shut-down.

More than a dozen men have already left town. At the request of President Nelson of the Miners' Union, six special deputies have been sworn in to keep the peace. The union has sent notices to different points in the West warning strike breakers to keep away. It is rumored this morning that eight employees of the Baltic will be called out but the report cannot be confirmed. It is possible that no building will be done until the strike is settled. Some four merchants have already said as much.

Many miners will go out prospecting and dry washing. Others are holding union deities and the Yellow Aster say they will not recognize the union in any way whatever. There is no disturbance here and very little drinking.

OAKLAND TRIBUNE

Tribune Publishing Company

William E. Dargie, President

MURDER AND PIETY.

The murderer of Mrs. Leroy says he ought not to be hanged because he got "only \$17" for killing the old woman. In the next breath he says he was goaded to commit the murder by Mrs. Leroy's taunting remarks about the white blood in his veins. Then he alleges that he was driven to the deed by drink, the taste for which he says he imbibed through the influence of the wretched female degenerate who was his consort. Again, he asserts there was no motive for the crime. Lastly he claims to be mentally irresponsible, and to have only an indistinct remembrance of the tragedy and the ghastly orgie that followed it.

By way of showing that he should not be dealt harshly with by the authorities, he intimates that he has "squared the case with the Lord" out of court, and is altogether in a pious and saint-like frame of mind. Having appealed to the mercy of Jesus, he thinks it nothing more than right that man should let him off easy for the crimes he has committed.

It is far from our intention to be irreverent, and if the idea presented is irreverent and blasphemous it is not our own, but the idea of the miserable wretch who foully murdered his aged and confiding benefactress. The excuses given for murdering the woman who had taken him into her home and given him food and shelter are given for what they are worth.

The proneness of atrocious criminals to make maudlin professions of piety when detected is illustrated by the Michigan woman who confesses to poisoning eleven of her relatives during the past fifteen years. She calmly said to the officers, "I have confessed it all to Jesus and I am sure He has forgiven me." Decency and real piety are of course as absent from this expression as are remorse and repentance. This woman poisoned her brother and his wife and child to get a little property. The motive for her crime was the vulgar one of dishonesty, just as it was the motive that prompted Walker to murder Mrs. Leroy. The trumpety and wholly inconsistent excuses given for the deed not only fail to extenuate but they are clearly afterthoughts.

The depth of piety felt by a man who thinks hanging all together too severe a penalty for a murder that yielded a profit of seventeen dollars is very impressive. According to this reasoning a thirty day sentence in the county jail would be sufficient atonement for the murder, had the proceeds been no more than seventeen cents. Nothing short of seventeen millions would justify hanging. Especially if the murderer, having squandered the fruits of his crime with prostitutes in deadfalls, should turn to Jesus. It is extraordinary how promptly people of the Walker and McKnight class embrace religion when the gallows looms in eight while they are pursuing their criminal career. It takes them but a very few minutes to convince themselves that they really deserve the right hand of Christian fellowship instead of the friendly offices of a hangman. Unfortunately the good of this class seldom die young enough.

The Cincinnati Enquirer says the President is making a "howling campaign." It is a howling success at any rate.

A SOCIALISTIC CLAIM.

It is stated by the Chronicle that among the demands of the concern in the arbitration conference between the United Railways and their employees is a claim of the employees to a share in the profits which accrue from operation. If such demand is made, it can hardly be seriously expected that it will even be recognized let alone acceded to. Its suggestion is probably in the nature of a make weight in the general count—something presented to be sacrificed.

Nevertheless the presentation of such a demand marks a signal departure from the relation between labor and capital that has hitherto been universally accepted. It is a long step toward communism. Indeed it is the assertion of pure communism. Up to this time the most radical demands of organized labor have gone no further than claiming a vote for the employees in the management of the employers' business. Here it is asserted that the employees have not only a right to manage the property of their employers but to share in the profits.

A more radical claim could hardly be advanced. It is based upon the assumption that the relations of the labor and capital employed constitute a partnership. The nominal employers are merely the directing heads of the partnership operations, subject, however, to the wishes of the employees. It is a scheme that will revolutionize the entire social and industrial fabric if successful.

It is worthy of note that May and December are seldom united in June weddings. In the spring the young maidens' thoughts turn to love—the young man, not the estate of the old chap. At other times it's different.

OUR COUNTRY'S DISGRACE.

Commenting on the hanging and burning of a negro by a mob in Belleville, Illinois, the Woodland Democrat says:

"The 'race war' epidemic is no longer confined to the South. It is now raging in Pennsylvania, Indiana, Ohio and Illinois. It is becoming painfully evident that the north star is no longer a safe guide for the colored brother."

This comment would be more satisfactory in an ethical sense if it contained some hint of reprobation of the barbarous deed of the mob. Telling the negro that he is as likely to be hanged or burned by white mobs in Illinois as by white mobs in Mississippi does not tend to solve the race problem or promote the cause of law and order. Lynching and burning are not made justifiable by degrees of latitude any more than the victims are shorn of the right of legal trial by the fact that they or their ancestors were once held in chattel bondage. Lynching in Illinois is as bad as lynching in Mississippi. Hanging a negro and desecrating his remains in Illinois is no justification for a similar proceeding in Louisiana. The fact that the victim has a black skin does not rob the atrocity of its revolting features.

Would it were possible to impress upon people the truth that mob outbreaks such as the one at Belleville are disgracing the American nation in the eyes of the world. They are lapses into pure barbarism. They are horrible, not because of the color of the victim, not because of the locality in which they occur, but because they are lawless, savage and brutalizing. Their excuse is an indictment—just what we think of the laws and the courts and are a gross reflection on the character of our population. The cruel spirit of torture and retaliation is upmost in the mobs, as the hideous maltreatment of the wretched creatures who are claimed as victims shows. What could be more senseless and revolting, more brutalizing and degrading than hacking and burning a body after the soul has been tortured out of it?

It is assumed by some that condemnation of mob violence is in some sort an expression of sympathy with men who commit crime. As foolish as this is, it is apparently believed by people who ought to know better. Others see in reprobating lynching an especial fondness for members of the negro race. This also is nonsense. A negro is entitled to the same right of trial by jury that a white man has, the right that the law prescribes and the constitution guarantees. Barbarous torture and murder are as heinous when the victim is black as when he is white. The degrading effect on the public mind is the same. It is quite likely that a majority of the persons lynched deserve death, but the manner in which they are executed by mobs is educating the youth of the country to despise the law and its processes and to regard barbarities practiced against persons accused of crime as meritorious. Lynching is as much an offense against civilization and Christianity as it is against the law. It is a crime against humanity that is not mitigated by color, latitude or politics, a crime that is making a degrading spectacle of the Republic of Washington and Lincoln.

Here are two views, either of which you can choose without paying a cent: Mark Hanna is in convention assembled at Columbus.—Chicago News.

They cannot fool Mr. Hanna by calling it a Republican State Convention. He knows what a political lynching is like.—Detroit Free Press.

If his enemies could agree Uncle Mark might have a little trouble.

THE ROYAL MASSACRE IN BELGRADE.

In changing their rulers the Servians have guarded against recurring disputes about the succession to the throne by wiping out the deposed dynasty root and branch. This complete extermination was not a mischance or a mere incident of the coup d'etat, but was a carefully planned piece of policy sagacious, as cold-blooded as atrocious. It was a massacre in strict accord with Oriental ideas of statecraft. By neglecting to commit a similar villainy when he usurped the throne, Henry the Fourth stored up the pain that came on his house in the wars of the Roses.

The downfall of the Obrenovitch dynasty is not a regrettable event from any point of view save horror at the barbarous massacre that accompanied it, a slaughter which induces the conclusion that Serbia has exchanged one worthless and inconstant tyrant for a sterner and more bloody-minded despot. Alexander was not as bad as his father, that royal loafer and dead beat ex-king Milan, but he was a shabby excuse for a ruler. He was weak, vain and inconstant. Placed on the throne as a constitutional monarch, he desired to be an autocrat like the Czar of Russia. He had no conception of statecraft, and was animated by no zeal for the welfare of his people or desire to better the condition of his country. It is to his credit, however, that he was not specially vicious nor addicted to the vices which

disgraced his father and made his reign a scandal throughout Europe. Moreover, Alexander had some amiable traits, among which was devotion to his wife. His fondness for her committed him to a fatuous and impolitic loyalty to her relatives. To this folly his bloody undoing was largely due.

Alexander's marriage illustrated his lack of statesmanlike quality. Had he followed the wise advice of his mother, Queen Natalie, he would have allied himself to some reigning house. An alliance with a German princess would have greatly strengthened his position and given a firmer seat on the throne. But he preferred to follow the bent of his own inclinations, and he committed the political mistake of marrying a dissolute woman of his own people who was neither royal nor noble. This was a breach of royal etiquette, and a grave blunder from every point of view save the romantic one. The airs of the humbly born queen excited the envious hostility of all the great dames in Serbia. The king's ostentatious preference for the queen's plebeian relatives kindled the fires of resentment in all classes of society. Withal, Alexander inspired no respect as a ruler, either for ability or his policies.

Never was ground made more favorable for a conspiracy, and Serbia is a very hot-house for breeding conspiracies. It has been a conspirator's paradise ever since Greek and Tartar began to match wits for supremacy. The Mohammedan conquest brought an element of Arab chicanery into the country, which has clung to its politics ever since.

The new king belongs to one of the ancient Volvode families that had been reduced under Turkish rule, and has intrinsically as much right to the Serbian throne as had the Obrenovitchs, who were always a foolish and fickle set, ever climbing to the heights of prosperity only to fall again into the depths of despair. But this is probably the last of them.

THE POWER OF HABIT.

"Give me a spoon," said the small boy at the breakfast table.

"When you say 'please,'" his grandmother replied.

But the child obstinately shook his curly head. "No, I will not."

After repeated refusals his mother removed him to another room to "talk" to him. When he came back he said, "Well, if I've got to—please!"

"Why didn't you say it at first?" asked his grandmother.

"Well, I tell you, mamma," he replied, "it was 'fraid I'd get in the habit of it."

CITY AFFAIRS HANDLED BY THE COMMITTEES.

CITY COUNCIL TO ROUTINE WORK OF COMMITTEE. IMPROVE. COMMITTEE.

NOTICE GIVEN THAT CERTAIN STREETS WILL BE PUT IN ORDER.

Extensive street improvements will probably soon be made in East Oakland for at a meeting of the Street Committee of the City Council last night it was recommended that the City Engineer be instructed to draw plans and submit estimates as to the cost of improving Fourteenth avenue from East Twelfth street to East Twenty-second street. The resolution to that effect was adopted and is as follows:

"Resolved, That the City Engineer be and is hereby authorized and directed to prepare and submit to this Council plans, specifications and an estimate of cost for improving Fourteenth avenue from the southern line of East Twenty-second street to the northern line of East Twelfth street, excepting therefrom that portion as is required by law to be kept in order or repair by the company having railway tracks thereon; also excluding therefrom that portion as lies westerly from a line drawn parallel to and distant twenty-three feet easterly from the western line of Fourteenth avenue and included within the northern and southern lines extended easterly of that portion of East Twelfth street that lies between Thirteenth and Fourteenth avenues. Said improvement is to consist of grading, curbing with redwood, macadamizing seven inches thick with macadam that will not lose more than twenty per cent of its weight in the latter test described in Ordinance No. 1422, constructing gutters three feet wide of broken rock, granite, constructing wooden bridges four feet wide, and constructing crosswalks of bitum four feet wide on concrete foundation. The repair of existing conduits from the existing catch-basins to the existing sewer in said Fourteenth avenue, is to be omitted from said plans and specifications. This Council hereby declares that it is the intention of said Council to order the work of repairing said conduits pipes done and the costs thereof paid from the treasury of the city of Oakland. And be it further

"Resolved, That the City Engineer and the City Attorney in conjunction with each other, are hereby directed to prepare and submit to this Council a resolution of intention to do said work and improvement, the entire costs and expense thereof to be assessed upon the district benefited.

"Resolved, That the City Attorney be and is hereby directed to report to this Council the procedure necessary to condemn to public use all rights and easements, if any, and all kinds, in and to any part of said Fourteenth avenue, which rights and easements are claimed to have been reserved where said street was dedicated to use as a public street, and which can conflict in any way with the full and complete jurisdiction of this Council over said street."

NEW RULES SUGGESTED WHICH WILL GOVERN FILING OF APPLICATIONS.

For the purpose of regulating the manner in which applications for permission to obtain liquor licenses are made to the City Council, the License Committee of the Council last night adopted the following rules:

"Whereas, Heretofore applications for liquor licenses have taken up the time of the Council out of all proportion to the importance of the interests involved compared with the other larger questions with which the Council must deal; and

"Whereas, It is desirable and expedient that the handling of such applications be systematized for the protection of the applicants and the Council; now, therefore, be it

"Resolved, By the License Committee, that the following rules be established as embodying the policy of the License Committee of the Council in dealing with said applications and protests:

FIRST.

"When an application for a saloon license is filed with the Clerk of the Council, as provided by law, the License Inspector shall immediately post or cause to be posted in a conspicuous place on the building where the license is proposed to be conducted said saloon a printed notice substantially in the following form:

"NOTICE OF APPLICATION FOR SALOON LICENSE.

"Notice is hereby given that residing at _____ street, has made application to the Council of the City of Oakland for a license for a saloon to be conducted on these premises.

"Any person protesting against the granting of said license must appear with evidence in support of his protest on the _____ day of _____, 190____, at 8 p. m. of said day, or at any subsequent day and hour, at the City Hall, to be heard, then and there to show cause why said application should not be granted.

"Provided that such notice should not be required to be posted on renewal of existing licenses.

"The License Inspector shall keep a memorandum of the date when said posting is made and shall report the same to the License Committee at the time said application is under consideration.

SECOND.

"When said application and protest (if any) are before the License Committee for hearing the applicant or protestants shall be allowed to be heard in person or by one counsel each, if they so wish.

"The protestants shall be heard first and must not take longer than twenty minutes in making the argument of their cause. The applicant shall then close the matter within ten minutes, which can be devoted to testimony or argument, as they shall deem best.

"Testimony of interested witnesses shall not be considered of equal weight with that of disinterested witnesses. By interested witnesses are meant the owner or those related to him, the owner or agent of the property where the saloon is to be situated, and those related to said saloon owner or agent who are opposed to all saloon irrespective of location.

"No person not a resident of the ward, unless he be the owner of property adjoining or adjacent to the property where saloon license is applied for, shall be heard as a witness.

THIRD.

"The committee requests the Council that the consideration of and discussion of protests before the matter comes before the Council for final action shall be confined to meetings of the License Committee, and that protests may be referred to the License Committee or by action of Council, provided that members of the Council be invited to attend the meetings of the License Committee when protests are under consideration and to take part in the proceedings thereof without a vote.

FOURTH.

"The committee requests that the Council approve the action of the License Committee or disapprove of the same, or refer the matter back for further hearing, as they deem best, and that the Council not otherwise be heard for or against any application when the matter is before the Council for consideration.

FIFTH.

"When a license has been granted by the Council no revocation thereof during the term for which it was granted shall be considered by the committee, except by a vote of four of the License Committee.

SIXTH.

"These rules may be amended or suspended on entirety at any time by a vote of four of the License Committee.

SEVENTH.

"These rules are not intended as an amendment of the license laws of the city, but to give wherever in conflict with said ordinance or general rules of the Council.

EIGHT.

"Printed copies of these rules shall be furnished by the Clerk to all applicants for saloon licenses and to all protestants."

GIVES RELIEF QUICKLY.

Regular Use of Hyomei Cures Most Stubborn Case of Catarrh.

No other medicine gives such prompt relief as Hyomei in the treatment of catarrh.

The first breath of this remedy soothes and heals the irritated and smarting air passages, and the regular use for a few days or weeks will cure the most stubborn case. Some of the reports from those who have been cured of catarrh by Hyomei read like miracles.

John S. Gray of Richmond Hills, Pa., writes: "I am 52 years old and have been a sufferer with catarrh in the head for 25 or 30 years. I have doctored with many specialists and they all told me that the disease was incurable. At the account of my age, after using Hyomei a short time I was greatly benefited and can now say that I am entirely cured. It has been six months since I stopped using the remedy and I still remain cured."

In nearly every town and village of the country can be found those who have been cured of catarrh by Hyomei. In Oakland there are probably over a thousand people whose health has been restored by this remarkable treatment.

Osmond Bros. have sold packages after package and every one has been with their personal guarantee to refund the money if it did not cure. Only two outfits have been returned and in each instance the money was paid back without question.

You run no risk whatever in buying Hyomei and your word decides the question as to whether you pay for the remedy or not.

Can you afford to suffer longer with catarrh when you can buy a guaranteed treatment on this plan?

JUDICIARY COMMITTEE WILLING TO GRANT NEW FRANCHISES.

The Ordinance and Judiciary Committee of the City Council last night recommended to the Council that the Oakland Transit Company be granted the franchise allowing street railway tracks to be laid on Talcott avenue west across Twenty-third avenue, connecting with the Piedmont line of the company.

During the discussion of the franchise it was suggested that the improvements being made on Talcott avenue under private contract would be lost and Attorney Edward Engle for the Transit Company stated that even if the work was completed it would have to be done over again to suit the company's track-bed.

The Transit Company was given the recommendation of the Ordinance and Judiciary Committee to lay tracks on Fortieth street to Forty-first street, and was given permission to abandon their tracks on Forty-seventh and Grove streets.

A protest against granting a franchise for double tracks on Talcott avenue was presented.

In reply to a question, Attorney E. W. Engle stated that the proposed line of the proposed line on Talcott avenue could be operated over a single track, as it was to be a connecting link with the street macadamized, and he thought it should be so arranged that the successful bidder for the franchise should pay a share of the cost of improving the street.

Attorney Engle, while not opposing the proposition to have his company pay a part of the expense of the street, stated he didn't think that the proposition advanced by Councilman Wallace could be legally carried out.

Councilman Wallace suggested that the application for the two franchises asked for by the company be segregated, so that the Council would have a chance to decide the company's proposal, to bid a proper amount for the privilege, asked for.

Attorney Engle said that it would not be possible to segregate the two franchises applications without beginning over again.

The committee finally recommended that the Council call for bids for the two franchises asked for by the Transit Company.

The Story of a Dollar

Do you know that most people have a very wrong view of the relationship between money and time?

For instance—we say to you, come to us and buy fifty dollars' worth of furniture to make your home brighter and more enjoyable. You say that you can't afford it, and it's true.

But we don't ask you to afford it at this time. We simply ask that you afford it at the rate of one dollar a week.

Now that looks easier, doesn't it.

And it's just as easy as it looks.

ROYAL NEIGHBORS.

The regular meeting of Pacific Camp No. 228, Royal Neighbors of America,

HUNTING FOR THE FIENDS.

CONTRA COSTA OFFICERS HAVE NOT LOCATED MISS SILVA'S ASSAILANTS.

Mary Silva, the 14-year-old girl who was brutally assaulted Tuesday in the San Pablo valley, about nine miles from San Pablo, by two unknown men, is improving and yesterday was able to give a complete account of her horrible experience.

She stated that she was returning with her mother from the Orinda Park picnic about noon on Tuesday. She was mounted on a horse, and when within a half mile from her home, she saw two men seated at the side of the road. She paid no attention to them, but kept on reading a letter she had just received.

When Mary arrived opposite the men, one of them sprang at her and shoved a pistol in her face, while the other dismounted her from the saddle. To prevent her screaming, the brutes tied a handkerchief over her mouth, a handkerchief which she could not see. Then they groped her by the right and left arms and walked her through the brush to the side of a brook, which is quite hidden from the road by brush and trees. There they threw her down and chained her hands behind her.

The chain was short and heavy and it was secured about the girl's wrists by a padlock. The chain is the property of James Crow, an Orinda Park farmer, but nobody has come as yet to claim the lock though it is supposed to have been stolen from a farm.

When Mary arrived at the girl's feet with pieces of hay rope. This rope they cut from the neck of the horse she was riding. After mistreating her terribly, her assailants went about determining what they could do with her. When she began to cry at one time one of the fellows said:

"What are you crying for, little girl? Soon the men returned and one said: 'Let's kill her and throw the body into the water.'"

"No," said the other, "there's no use doing that; she'll die anyway." Finally the men made the girl lie on her side with her face away from them and telling her not to look after them under penalty of death they stunk away and disappeared.

There she lay until a late hour, suffering terribly, the iron chains at her wrists cutting deep into the flesh. She cried aloud and struggled to release her hands, but her efforts were futile.

The father and mother and farm hands began to search for her about 4 o'clock and at last, one of the searchers, John Dias, attracted by a faint cry, found the girl on the edge of the creek. The girls have not yet been apprehended, as the authorities were not informed of the crime until the next day. This gave the brutes an opportunity to get away, but officers are scouring the whole country in search of them.

The entire community around the scene of the assault is much wrought up over the affair and it is feared that if the men are found, they will take the law in their own hands.

RAILROAD MEN ON STRIKE.

CHICAGO, June 12.—Three hundred men employed by the Chicago and Eastern Railroad have gone on strike, and their action threatens to tie up the South Chicago plant of the company. The men are water-tenders, oilers, car-builders and freight-handlers, and want a wage increase of 2 1/2 per cent. The company offered 1 1/2 per cent, which was refused. The 600 carpenters employed in the packing plants at the Union stock yards have been given a 20 per cent increase in wages. The men are all members of the Brotherhood of Carpenters and Joiners and have been getting 27 1/2 cents an hour.

The carpenters desired to have their pay lifted to the union scale of 50 cents, but the packers refused on the ground that the men worked the year around. A compromise was reached, giving the carpenters 33 cents, the highest rate paid for similar work in any city of the West.

CHEYENNE, Wyo., June 12.—The Union Pacific blacksmiths at this place have returned to work. They should have reported last Tuesday, but misunderstood the terms of agreement.

MORE FIREMEN "Brittle" ARE NEEDED.

BIG LOCOMOTIVES ARE THE EASIEST THINGS TO HANDLE.

An agitation is kept up in several of the Eastern States in favor of putting an extra fireman on each locomotive for the purpose of watching signals, and thereby preventing collisions. It is generally thought that a third man is badly needed on many locomotives, but his duties ought particularly to be that of assisting the fireman, whose work is becoming too heavy for one man.

On some railroads there is already great difficulty experienced in obtaining firemen for some of the locomotives now in use. The introduction of the new heavy engines is responsible for the lack of men. The men are required to shovel from twenty-five to thirty-five tons of coal each way in out of a train of ten or twelve engines, so that on a full trip both ways the average fireman shovels nearly seventy tons of coal. The men come home completely played out, and probably before they have had time to secure the necessary amount of sleep they are called out on the road again. This continual wear soon takes the ambition out of a fireman, and he is not an uncommon sight to see firemen as young as 16 years, but it is impossible for them to fire one of the big engines.

The evil should be remedied by the roads placing two firemen on each of big engines and that certainly is not too much. Some of the largest engines would keep two men busy enough to maintain the correct gauge of steam during the entire run, and then the roads would not have to suffer so much from engines "lying down" on the trip. Unless the operating departments make some general change in this regard they are sure to experience serious trouble in replenishing the ranks of the firemen who cannot stand the pressure.

On the Pacific Coast matters in this respect are somewhat different to those in the East. In the first place a smaller engine is used and in the second the fuel used is principally crude petroleum which does not entangle and make labor on the part of the fireman and he can readily look after the steam gauge and also watch the signals. In this respect he has a decided advantage over his western brother.

NOTES AND PERSONALS.

GATHERED ABOUT THE YARD.

Andrew Hyde foreman at Port Costa, is to be transferred to West Oakland, where he will be night foreman of the round house. Walter Hess, shop electrician, is to move his residence from Alameda to West Oakland.

Several very successful tests were made yesterday with the new Novo steel on the big steel tire lathe in the machine shop. The tests attracted a great deal of interest among the mechanics.

Alex. Glarry, foreman of the road gang, has been absent from the shop for several days on account of indisposition. He returned to work yesterday.

The construction crew is at work repairing and raising some of the surs about the yard.

The constitution of 1901 will be the basis of the future governmental system. As to the present condition of the country peace prevails everywhere. There has been no disturbances and the situation promises to become better in the future. Those who speak of existing political sentiment and predict further changes are entirely wrong."

THEY TRIED TO FOOL THE PRESS WITH A BOGUS STORY.

SAN DIEGO, Cal., June 12.—Not a thing has been discovered by the police that would throw light on the supposed suicide of the girl who, in a note dropped on the street last night, declared her intention of doing away with herself. The note, dated 9 a. m. yesterday, was signed "Virginia D." contained the information that the writer had relatives in independent circumstances in Oakland and stated that the brand Prince would be her grave. The following is a part of the note: "For identification: Age 21, blonde hair, fair complexion, weight 40 pounds, brown eyes, black and white shirt waist, black skirt, one diamond ring and one plain band ring. I have been up to a year ago, a newspaper correspondent, but I'll not recite the story." The writing is in a feminine hand. The purse containing the note is brown morocco leather, well worn, and contained nothing else, which would furnish a clue to the owner's identity. The following note is in the hands of the Chief of Police and was found in the purse addressed to him: "I am about to commit suicide, and if you hear of any body being found on any beach, this will identify me: I am a girl, 21 years of age, blonde hair, brown eyes, black and white shirt waist, black skirt, diamond and plain rings. I doubt that you will locate my folk. I have concealed all articles of identification, as my folk are people of refinement of Oakland, Cal. If my body is recovered, send my jewelry to Mr. C. Calmes (or Calmes), Oakland Press Club, Oakland, Cal. VIRGINIA D."

[The above story is declared to be a rank fake and the perpetrators are going to be prosecuted by a news company on a criminal charge. Seth Calmes, the reporter referred to, says he does not know any woman by the name of Virginia D., but he does know two young men who are practical jokers and who are now in the South.]

PRINCETON, Ind., June 12.—Two private coaches of officials of the Southern Railway, according to private advices received here, are standing in ten feet of water in the East St. Louis. General Manager Spencer's coach was recently built here at a cost of \$25,000. The occupants escaped on rafts.

BROKE HIS LEG.

W. J. Cushman, living at Adams wharf, broke his leg this morning and was treated at the Receiving Hospital for his injury. He said that he was carrying a sack of flour and slipped and fell and struck in such a way that it caused the fracture. The large bone of his leg above the knee was broken in two, but it is believed that it will readily knit together again.

ONE INCH SINCE MIDNIGHT.

PROSPECTS FOR RELIEF SEEMS NEAR—NORTHEAST SUBURB IS FLOODED.

ST. LOUIS, Mo., June 12.—At 7 a. m. when the official observation was made, the river had fallen slightly more than an inch since midnight and stood at 37.5 feet on the government gauge. The flood is declining very slowly, but with falling rivers always, and no indications of rain, the prospects for relief to the territory in this vicinity and north for hundreds of miles that is covered with a great body of water seems near.

Landsown, the northern suburb of East St. Louis, is flooded by water from the reservoir at Hunter's switch. At 6 o'clock this morning water was from six to twenty inches deep all over the suburb and rising rapidly. A swift torrent is running under the trestle at Lake station, moving the back water from the south and spreading over Winslow's suburb south of the Rocky road. At midnight last night the East St. Louis and Southern Company abandoned its cars at Rockroad and the terminal belt. The cars there were taken to sheds at the bluffs. At 1 o'clock this morning 200 cars and a supply of sacks were hurried out to the belt tracks at Landsown. By daylight a levee of dirt bags, three feet high and two feet wide, extended along the north part of East St. Louis will be made at this point.

NEW YORK, June 12.—The investigation by the interstate commerce commission into W. R. Hearst's complaint that six railroads, operating into the anthracite region, have combined to violate the interstate commerce law, was continued today. W. R. Marshall, a local coal dealer, submitted a table showing the refund made to his firm by the Lehigh Valley Railroad Company when the price of coal was at tide water too low to let the dealers make a profit and pay full rates. No refunds, he said, have been made since March, 1900.

THEY ROBBED AN EXPRESS CAR

BOLD WORK OF BANDITS NEAR THE CITY OF ROCKIES-TER.

ROCHESTER, Ind., June 12.—Last night at midnight an express car attached to the eastbound train on the Erie Railway was entered by robbers just outside of Englewood, who completely looted it.

The robbers threw undesirable express-packages along the road all the way from Hammond to Rochester. The crew of a freight train followed the express car and discovered the packages by the side of the track and notified the officers at Huntington. When the express car was forced open, as this was done one of the robbers dashed out, firing two shots and made his escape. The police then made their way into the car and found two other robbers hiding behind some packages. They were placed under arrest. In all the packages in their clothing they had valuable goods stored away. Every package in the car with the exception of one had been pried open. This package contained about \$7000 worth of valuables. The crew of the freight train picked up goods to the amount of \$4000.

The man arrested was Cyrus Gillen, aged 25, of Piqua, Ohio, and Frank Marlon, aged 29, of Lima, Ohio.

KANSAS CITY DEADLOCK AMONG TRUSTEES.

THERE IS DESTITUTION AMONG HUNDREDS OF FLOOD SUFFERERS.

KANSAS CITY, Mo., June 12.—Kansas City, Kan., is still sorely in need of aid for its flood sufferers. A second urgent appeal to the country at large has been issued by the relief committee of that city. It follows:

"The destitution on the part of the flood sufferers in Kansas City, Kan., demands immediate relief. Local charity is totally inadequate to meet the situation. Outside assistance is imperative. Two entire wards and parts of two others, comprising, by official census in March, 1903, at least 23,000 souls, out of a population of 60,000 in the entire city, are made homeless and dependent. Hundreds of their homes have been swept away and those that remain have been left with a deposit of five feet in depth. In most instances persons were able to save only the clothing they wore. Their household goods and clothing have been swept away or destroyed by water and mud. Kansas City, Kan., has lost and absorbed the 23,000 persons for eleven days. While the number dependent on charity is gradually diminishing as employment opens up, yet there will be many thousands dependent on charity for food, clothing and household goods for weeks to come. The funds raised up to the present time have been nearly exhausted. The authorities will be unable to cope with existing conditions unless the outside public comes to their aid. The city officials have inaugurated a vigorous and effective system for the care of the flood sufferers. Money and supplies in large amounts will be needed to prevent extreme suffering. All donations from the general public should be sent to Thomas B. Gilbert, Mayor, Chairman, Kansas City, Kan., has no wealthy citizens to whom it may look for aid. Its population is made up largely of working people. (Signed) "THOMAS B. GILBERT, Mayor, Chairman, "W. H. CRADDOCK, "Ex-Mayor."

MORE HELP FOR TREASURER TAYLOR.

If the recommendation of the Finance Committee of the City Council meets with the approval of the Council, then City Treasurer Felton Taylor will have all the help he wants to make out the tax rolls and other necessary office work. For the past several months, Taylor has been working in his office from October to December, and three from April to June, 1903. Each is to receive a salary of \$100 per month.

HAVANA, June 12.—President Palma has pardoned Seaman M. Reddick of the United States cruiser San Francisco, who recently was confined in jail and fined \$50 by a court at Santiago after having been convicted of intoxication and disorderly conduct. Reddick was unable personally to pay the fine, but was released on his parole by his shipmates just before the San Francisco sailed for Spain. The pardon was granted at Minister Siquiera's request on the ground that the fine was excessive.

LIVERMORE CITY FATHERS UNABLE TO AGREE ON APPOINTMENT.

LIVERMORE, June 12.—The deadlock in the Board of Town Trustees over the filling of the vacancy caused by the resignation of Trustee Berlin is beginning to cause more or less comment. It is reported that several conferences have been held lately. The temperature developed at the meetings varied with some of the weather we were having last week, and though they were held behind closed doors the sulphurousness of some of the language used permeated the outer air and caused some of our best citizens to suggest a specified spot and a twenty-four foot ring as the best means of solving the difficulty.

Trustees Meyers and Kennedy have selected a man whom they think is well qualified to fill the position. It is not known whether Trustee Murphy or Knox have made their selection or not, but at present their position seems to be to oppose any candidate named by the other two.

Previous to the resignation of Trustee Berlin, he invariably acted with Murphy and Knox. On any question that might arise, The balance of power will be with the side with which the new appointee may align himself. Then again there is the high license ordinance which was favored by Trustee Murphy and Kennedy, and which was really the beginning of the deadlock. It was up to Berlin to say the word and the saloon license would be fixed at \$400 a year, but Mr. Berlin, being himself engaged in the saloon business, had no desire to incur the ill will of his business associates by deciding either way, and took what to him seemed the easiest way out of the difficulty, resigned.

A great many people are wondering from what source the agitation for a high license comes, as the leading temperance workers of the community are taking no part in it. And in fact, some of them have expressed their opinion that it is not the proper course to pursue. If the deadlock should last for some time longer interesting developments may be expected.

RECOMMENDS REMOVING SHOES.

First street is receiving another coat of oil. Marshal Smith, who is Acting Superintendent of Streets, is bossing the job, and can be seen at almost any time of the day or night directing pedestrians to the place where they should wash or sprinkling sand on the crossings. The floors in all the stores are covered with saw dust and the Japanese custom of removing your shoes before entering your home is in order.

PRAISE FIRE DEPARTMENT.

The adjusters of the various companies who were interested in the fire of last Saturday night, have completed their work and made very satisfactory settlements in every case. M. F. Mack was awarded the full amount of his insurance, \$700. The fire was caused by a candle, \$250; John Yukota, \$105; H. R. Andersen for damages to the Levy block, \$1280; A. Gardalia, \$750 for the building occupied by M. F. Mack; Chris Schmidt, Fred Mally and L. P. Hansen suffered slight damages and received satisfactory settlements. Only for the absence of wind and the good work done by the Fire Department the loss would have been far greater. Several special agents and adjusters happened to be in town at the time, including E. T. Gordon of the time, Aachen and Munich, and they all express themselves as surprised at the manner in which the Fire Department handled the blaze. Mr. Gordon took a photograph of the scene to show the Government of its present form of administration into one vastly and radically different, the writer takes no exception. But Col. Irish has word-painted, only one side of this picture of "padding revolution" and held it up to view. There is another side, and the writer will undertake, at best, in feeble way to paint it in verbal colors that all who see (read) may comprehend its meaning. The writer has already stated that he agreed with Col. Irish's view, that organized workmen constitute one of the factors that enter into this problem of "padding revolution." He will now go a step further, and say there is another very large factor, namely, organized capitalists.

TO DECLARE THEM BANKRUPT.

SAN JUAN, P. R., June 12.—The representatives of three New York firms have petitioned the Federal Court to declare bankrupt the dry goods firm known as the "Successors of Jose de Hernandez," of San Juan, owners of three of the largest retail stores of the island. The liabilities are said to be \$27,000 and the assets \$100,000.

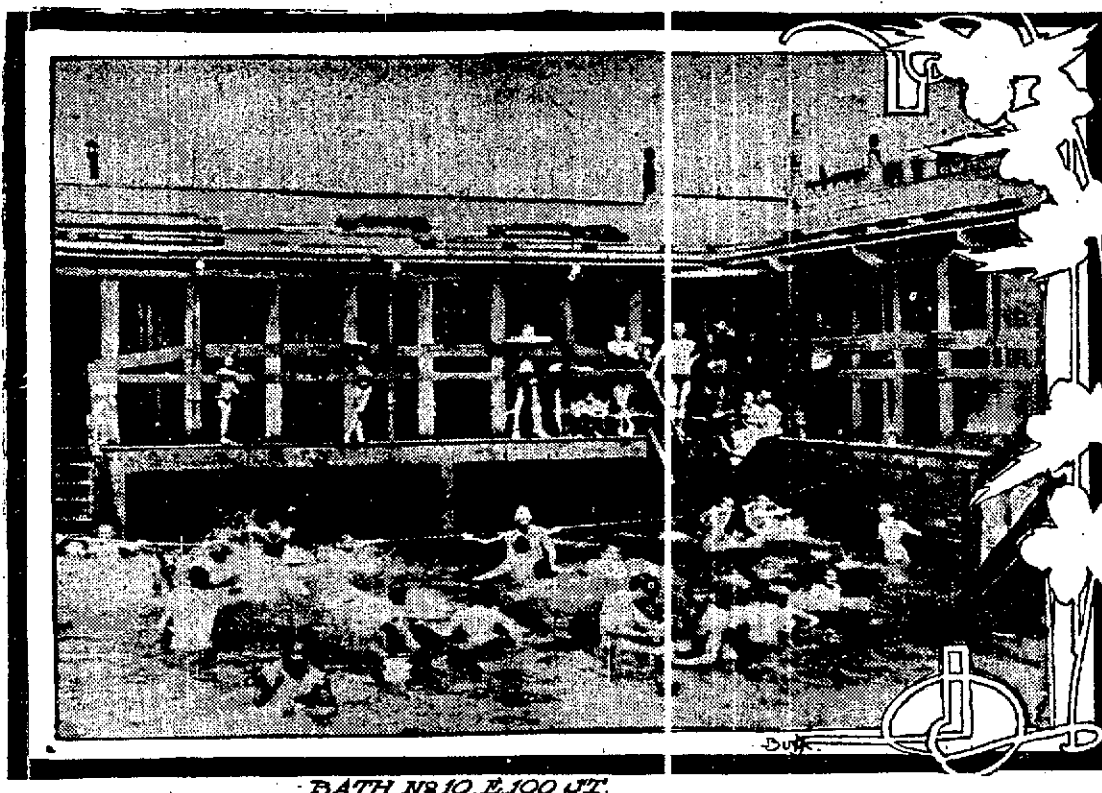

ENGLISH DIRECTORS.

MONTREAL, June 12.—Sir Charles Rivers-Whitson and a party of directors of the Grand Trunk Company, accompanied by General Manager Hayes, have left for New York after a final conference with the Dominion Cabinet about the Grand Trunk-Pacific scheme. They will sail for England in a few days.

A SUCCESSFUL OPERATION.

FOUGHKEEPSIE, N. Y., June 12.—Miss Ellen C. Roosevelt, a cousin of the President, has successfully been operated upon for appendicitis at her home in this city. Miss Roosevelt was at one time a champion lawn tennis player and is an expert in the handling of ice yachts.

PUBLIC BATHS IN NEW YORK.

New York now has the most extensive and elaborate system of free baths in the world. Magnificent public swimming pools with competent persons in attendance have been opened all along the two river fronts that line both sides of Manhattan. One hundred thousand bathers can now be accommodated daily. The baths are absolutely free and are being taken advantage of by heat-pestered New Yorkers.

JONES ANSWERS IRISH.

HE HAS SOMETHING TO SAY ABOUT UNION CAPITALISTS.

Editor TRIBUNE: Col. Pohn P. Irish, in last Saturday's TRIBUNE, (reproduced from "Public Policy"), talked entertainingly—though it may not be said edifyingly—of "the pending revolution."

The possible good effect of that able writer's article was greatly lessened if not wholly neutralized by its speciousness as a special plea, (if not by direction, certainly by indirection) in favor of organized, "unionized" capitalists, being in fact an arraignment, solely, of organized, "unionized" workmen.

With Col. Irish's postulate, that, "a revolution is pending," the writer agrees. With his conclusion that "unionized workmen constitute one of the factors causing this revolution," the writer also agrees.

In his condemnation of all that is un-American in the policy, acts and purposes of organized craftsmen, as partaking of organized, injustice and tyranny, the writer concurs.

With his view, that the propaganda of trades-unionism is attended by more or less lawlessness and violence as incident to, and concomitants of strikes, the writer coincides.

To his deduction, that all these conditions are pregnant with revolution that must culminate in a transition of our Government out of its present form of administration into one vastly and radically different, the writer takes no exception.

But Col. Irish has word-painted, only one side of this picture of "padding revolution" and held it up to view. There is another side, and the writer will undertake, at best, in feeble way to paint it in verbal colors that all who see (read) may comprehend its meaning.

The writer has already stated that he agreed with Col. Irish's view, that organized workmen constitute one of the factors that enter into this problem of "padding revolution." He will now go a step further, and say there is another very large factor, namely, organized capitalists.

In point of priority of existence and action, this factor was first in the field. The brazen, sagacious "men of money" set the initiative of organizing, "unionizing," if you will, for their own protection and aggrandizement; and the expert result of this was, successfully and specifically to those so organized, (unionized), that the workmen took cognizance, and under stress of necessity, imitated their more brazen brothers, the capitalists, by organizing, that is, unionizing, for their own protection and betterment.

Surely Col. Irish nor any other intelligent, reasoning man will contend that there was or is anything wrong or unlawful in this on the part of workmen. Only those who are willing to convince themselves of blind, unreasoning prejudice born of class bias, will so contend.

The writer has already concurred in the condemnation of all wrongs perpetrated by federated workmen in their organized unincorporated capacity upon their non-union brothers. But he will advance upon higher ground than did Col. Irish, and also condemn the un-American policy, purposes and acts of organized, incorporated and unincorporated capitalists toward their brothers outside the pale of their organizations. That we have today, interwoven as a very large part of our commercial and industrial fabric, the great trust monopolies such as the Standard Oil Company, the United States Steel Corporation, the Anthracite Coal Combine, the Tobacco Trust, the Sugar Trust, etc., is indubitable proof that great injustice has been done by proscribing the field of commercial opportunity to the utter exclusion from its privileges and advantages of thousands of honest men of moderate means.

Is not this un-American because unfair, unjust and tyrannical? These giant combinations of capitalists, that is in the main, millionaires and multi-millionaires, are effected for the sole purpose of speedily enriching

those who form them, by and through an artificial regulation of the output of the respective commodities whose production is controlled respectively, and a equally artificial manipulation of the price of such commodities. And that, not to the end that the public good may be served by cheapening such commodities to consumers, but that fat dividends may be earned not only on actual capital (dollars and cents), invested, but upon a large percentage of fictitious capitalization represented by an over-issue of stocks and bonds, the proceeds from the sale of which went into the coffers of a few individuals who gave nothing in return therefore except the promise of big dividends.

The workmen, the craftsman, artisans and unskilled laborers, whose brain and brawn have to be invoked to earn these promised dividends, in converting themselves into unions, federations, etc., having the purpose to regulate the output of the commodity that they control, namely, labor, in their respective crafts; and of artificially manipulating the price at which such commodity shall be sold, are but again imitating their more "brazen predecessors in the art of converting and promoting self-interest."

If it is wrong on their part then, is it not equally wrong on the part of the more brazen brothers, the capitalists? Indeed, might not it be urged that it is more wrong on the part of the latter, because they are more "brazen" and should therefore have had better sense than to have set an example so easily to be followed by their less brazen brothers the manual toilers?

But in conclusion why should Col. Irish, the writer or any one else bewail what is? Are we not philosophers enough to be resigned to what we cannot prevent, alter or in anywise obstruct? And are we not president and sagacious enough to see and comprehend that the ultimate toward which society and the world's Christianity is tending is to be Christianized by having in its social, political, industrial and economic life militant and dominant the spirit of Christ: the Man of Nazareth, the world's wisest, preceptor and purest exemplar?

And who would presume so much as obstruct a stream of beneficent opposition across the path of human progress toward this exalted good?

Yes, we are in the midst of a revolution being wrought out almost bloodlessly through and by evolution and the powers of earth, and had we cannot stop it or turn it back in its course.

Both unionized workmen and unincorporated capitalists (who are also workmen) have come into existence as organizations opposed each to the other as the great impelling force, in this world, of progress and change.

It all rests with the unionized capitalists as to whether this revolution shall continue to be wrought out bloodlessly through and by natural economic process of progression, set in motion by Col. Irish, that these will not try to interfere by invoking unjust process of law to disorganize their brothers the manual toilers, while they themselves continue organized and exercising the power inherent in organization.

The writer would welcome with glad acclaim, the disorganizing of both as antagonists, by a merging of them into one.

This would be economic and industrial brotherhood, this is what humanity cries aloud for. It would be a realization of the Christ ideal that which nothing higher is by mankind obtainable.

JOHN AUBREY JONES.

COMMITTED SUICIDE.

NEW YORK, June 12.—Herbert Hendrickson, 23 years old, a bridegroom of two months and brother-in-law to the former wife of Louis T. Distrow, who was tried for murder in connection with the Tiams Bay tragedy, has committed suicide.

By a strange coincidence, it is second largely came on the anniversary of the drowning of "Dimples" Lawrence and Clarence Foster. Temporary insanity is said to have been the cause of the suicide. Hendrickson was well known on Long Island as an affable athlete.

HOUSEBOAT CAPSIZES.

CLARENDON, Arkansas, June 12.—Seven persons have been drowned at Aberdeen, on White River, by the capsizing of a houseboat. The victims were W. B. Moneymaker and wife, J. M. Clark and wife and two boys, and a girl. The people were engaged in gathering mussel shells.

BOXING GAME IS NOT SETTLED.

MATTER WILL BE SETTLED AFTER TALK WITH THE MAYOR.

Another ordinance regulating boxing contests was presented at a meeting of the Ordinance and Judiciary Committee of the City Council last night for consideration. The proposed ordinance was drawn by the City Attorney and confirms with the ordinance previously introduced, with the exception that it provides that a club before being allowed to conduct a boxing contest must have been a year in their quarters, thus preventing any "mushroom" club from springing up and pulling off a fight and then carry away the proceeds.

After the proposed ordinance was read, Attorney H. L. Hyman wanted to know how the A.C. Club was going to give a fight under the proposed ordinance. He stated that the A.C. Club was considering about building at Tenth and Webster streets at a cost of \$2,000, and under the proposed ordinance would have to be in their new quarters a year before being allowed to conduct a boxing contest.

He then read off "mushroom" clubs that the amendment was made to the ordinance," explained Councilman Elliott. "We don't want a club to come here and give a fight one night and then go away with the proceeds. Although the other ordinance gave the Board of Police Commissioners full power to veto the ordinance, we have an honest board and they might stand in with the San Francisco toughs."

Councilman Cuviller expressed himself as being of the same mind as Councilman Elliott, but thought that by the way of a compromise the time limit should be made three months. Attorney Hyman thought that that was more reasonable. Then the matter was laid over to allow the committee to consult with the Board of Police Commissioners and the Mayor, and get their views on the proposed ordinance and ascertain whether or not the Mayor will veto the ordinance when it comes to him.

UNION PICNIC AT NILES CANYON.

Congregational and Presbyterian Sunday schools will picnic at Fernbrook Park, in the Niles canyon, tomorrow. Theological differences are to be left behind and the time given over to the enjoyment of a day in the country.

The picnic train leaves West Oakland at 8:30 o'clock, stopping at Adeline, Seventh and Broadway, East Oakland, Twenty-third avenue and Fruitvale stations.

Seats for all and a good time are assured for every one. An extensive program of races and games has been prepared.

TITUS REJECTED.

NEW YORK, June 12.—The Herald today says that the entry of C. S. Titus, the American amateur champion, in single scull shells, to the Henley regatta, has been rejected. Titus' entry for the diamond sculls was made by the Atlanta Boat Club, of this city. At a meeting of the executive committee of the National Association of Amateur Oarsmen, in March, he was endorsed as a true amateur, and this endorsement and also the entry were sent to the Henley Committee through the secretary of the National Association of Amateur Oarsmen. Titus had been making preparations for several months to row in the Henley regatta and is now in fine rowing fettle.

Titus to compete in the American, Henley and People's regattas at Philadelphia on July 2 and 4, respectively.

STILL IN POLITICS.

LINCOLN, Neb., June 12.—W. J. Bryan makes the announcement that the Jefferson Club of Fairview, his country home, will hold a Fourth of July celebration this year, at which Mayor Tom L. Johnson of Cleveland, Richard S. Wynn of Texas and City Attorney Taylor of Chicago will be orators. Mr. Bryan said the desire of the club is to return to the simplicity and sincerity of the early day celebrations, instead of making it one of sport and money-making for merchants.

GRADUATION AT TUNNEL WALL IS FALLING.

BRIGHT PUPILS WILL GET THEIR DIPLOMAS NEXT WEEK.

The graduating exercises will be held at the high school on the evening of June 13. The program is as follows: Invocation, the Rev. Miles Fisher; introductory remarks, Vice Principal E. F. Burroughs; original poem, Miss Helen Burroughs; song by Oakland High School Girls' Glee Club; essay, "Heroines of Greek Poetry," Miss Minnie Culver; oration, "Our Life in School," Gurden Edwards; violin solo, Miss Ruth Salinger; address to graduates, Hon. Henry Weinstein of Sacramento; bass solo, Jacob Fraser; presentation of diplomas, George E. Randolph, president of the Board of Education.

The candidates for graduation are: Miss Louise Geneva Bassett, Miss Laura Virginia Berry, Miss Kathryn Josephine Burns, Miss Helen Radcliff Burroughs, Miss Estie May Cole, Miss Minnie Walker Culver, Miss Elsie Branch, Miss Dora Jacobs, Miss Sophie Charlotte Johnson, Miss Jean Stewart Johnston, Miss Lilla Amos Marshall, Miss Ernestine Emily Moller, Miss Alice H. Mould, Miss Margaret Hardie Neall, Miss Emma Frances Orton, Miss Lizzie Jacoby Park, Miss Ruth Elsie Salinger, Miss Corolla Stratton, Miss Beulah Summers, Miss Lillian Annabel Taylor, Miss Nellie W. Thomas, Miss Alberta Elpis Vollmers, Miss Edna Jay Wade, Miss Marian Beckwith Walsh, Miss Clara Laura Warren, Miss Myrtle Glover Wood, Miss Florence Cary Ziegenfuss, Horace Oliver Camm, Ephraim Dyer, Gurden Edwards, Rowland Leonard Egenhoff, Donald English, John James Frazer, Ralph Carleton Gorlin, Charles Dearborn Goodman, Harry Edwin Gray, Harry Huggins Guterson, Sigmond Kolm, Harry E. Leach, Herbert Nottage, James Grover O'Connor, Edward A. Palmer, Conrad Reud, Herbert Allen Stoddard, Frank Lewis Warner, Roy Elton Warner, Julian Whitman, Carl Whitmore, Fred Whitney.

The intention of both counties is to formally open the tunnel on Adams Day, 9th of next September, but long before that time, the great bore will have been completed.

The formation through which the tunnel men are penetrating now is a species of basalt which is hard and gritty but which is worked with comparative ease.

Thus far, of the money expended on the Contra Costa side, \$10,000 has been contributed by the business men of Oakland, an evidence of merchantile sagacity and enterprise which are worthy of commendation. This city has pledged itself to pay one-third the expense of the Contra Costa part of the work and expects to raise about \$18,000. About that amount has been subscribed and collections are being made on it daily there being now about \$800 on hand.

A cheerful feature of the undertaking, however, is that the driveway through the mountain is not costing as much as it was anticipated it would.

The digging of the tunnel has developed a supply of water for private concerns which is appreciated, all the more so, because it has been obtained by the beneficiaries without the expenditure of a penny. On the other side of the line, the flow of water is about 6000 gallons an hour, while on this side it is 10,000 gallons in the same period or 240,000 gallons each day, the beneficiary being the Realty Syndicate which owns the surrounding property.

The new road through the hills will have a width of 17 feet 6 inches at the base and a height of 11 feet at the spring of the arch, increasing at the apex to about 16 feet.

FOR VIOLATION OF LAW.

NEW YORK, June 12.—Graham Rice, who the police authorities claim is president of the Maxim & May Company, turf commissioners, has been arrested by order of Chief of Detectives McCluskey for alleged violation of the law relating to the making of wagers on races. He was released on \$1,000 bail.

Inspector McCluskey says he had a defective remit, in a registered letter, a sum of money to the firm to be placed on a race and that the detective saw Rice receive the letter. An attempt was then made to arrest him, but it was unsuccessful. The detective later made a visit to Rice's house and took him into custody.

TO MEET IN OCTOBER.

WORCESTER, Mass., June 12.—Bishop Thomas J. Conway, chairman of the committee appointed to arrange for the fifth annual conference of American Catholic Colleges, announces that the conference will be held next week in October in Philadelphia, instead of the first week in July, as previously announced.

Councilman Cuviller expressed himself as being of the same mind as Councilman Elliott, but thought that by the way of a compromise the time limit should be made three months. Attorney Hyman thought that that was more reasonable. Then the matter was laid over to allow the committee to consult with the Board of Police Commissioners and the Mayor, and get their views on the proposed ordinance and ascertain whether or not the Mayor will veto the ordinance when it comes to him.

MRS. RICHMOND INSANE.

WATERTOWN, N. Y., June 12.—A commission appointed to inquire into the sanity of Mrs. Rachel Richman, wife of a wealthy New York manufacturer, has rendered its report. The commissioners find that Mrs. Richman is insane now, and that she was insane on July 1, 1902, when she was accused of stealing from Mrs. Walter Delabarre, at a hotel in Alexandria Bay, a pearl and diamond necklace valued at \$1,000. Mrs. Richman is now in a sanitarium.

Mr. and Mrs. Richman were both indicted, but an order was obtained for a commission to investigate Mrs. Richman's sanity, and its report probably means that the proceedings against her will be dropped.
